

We offer

- ◇ Surgical
- ◇ Non-Surgical
- ◇ Medical Grade Skincare

In your first visit, cosmetic surgeon will have a consultation with you to understand your concerns and expectations.

First visit is also an opportunity for patients to get answers for all their questions, understand the benefits, risks & complications and to get prepared for the surgery. Therefore make your 'First Visit' resourceful to have an appealing personality.

The Philosophy

Cosmetic surgery is about helping people look better and it is also about helping you feel better about yourself. Patients who visit our clinic can expect to receive superior treatment tailored to their needs.

We are here to provide real health benefits to the individual as opposed to simply cosmetic outcomes.

Dr Michael Xu

Cosmetic Surgeon

Medical Grade Skincare

At Restore Cosmetics, we provide comprehensive care to our patients using the latest technologies.

Before we start any treatments, you will be taken through a detailed assessment and we would construct a personalised treatment plan with you.

All treatments are performed by our highly trained and qualified dermal clinician who has 18 years of medical and paramedical aesthetic industry experience.

All treatments are performed under the supervision of Dr Michael Xu.

Clinical Skin Consultation & Diagnosis

A thorough assessment is a vital step in skin treatment and product selection. This detailed skin assessment helps us determine what is best for you, and provide you with the understanding of how to best look after your skin.
